

Business Broadband

Please be aware that due to price increases by our suppliers in line with inflation plus additional allowed by Ofcom. Bartel has now been forced to increase our line service charges, including broadband from the 1st April 2024. This is only the third increase in our service charges in over a decade. Anticipated increases will be between 10% & 15%. Charges will apply on invoices dated from 1st April 2024.

- Our business grade broadband packages are high speed, price competitive products which come with a pre-configured 4 port wireless router. We also offer small business packages if this best suits your needs. We can offer you a range of broadband services with the following characteristics.

- A range of connection speeds available from 512kb up to 80meg
- Highly reliable network with minimal downtime
- Suitable for all applications - internet access, Cloud and Hosted telephony, IP CCTV etc

- Competitively priced
- Well supported business quality products with low contention ratios
